

YOU ROCK!

First of all I would like to thank you for your interest in me at your event. This infosheet contains information about myself and the instruments I play.

In the case of a tailor-made offer for multiple events within 1 year or a full-day event, please contact me for a tailor-made agreement. Nice co-ops with dj's and other artists are also available.

If you have any questions or comments, don't hesitate to contact me.

01 WHO THE F*CK AM I.

I'm Sam Anderson, but you might know me as The Djembeman. For over 18 years, I've been shaking up the Belgian (and some international) music scene with my djembe, digital percussion and drum pads, playing live alongside some of the best DJs at events, festivals, clubs, and weddings.

When I hit the dance floor with my live percussion, the crowd goes wild. I love adding that extra vibe and energy to every party and special occasion. My djembe is a real eye-catcher, equipped with LED lights, giving it a modern twist that stands out from traditional African djembes. At many weddings and events, I invite people to join in and play the djembe, adding a fun and interactive element that everyone enjoys.

My love for polyrhythmic percussion started when I was 15 and first heard a djembe at a Techno party. What began as a fun jam session with friends turned into my life's passion. Music runs deep in my family. My dad, Paul Anderson, was a well-known singer, and I was tapping along to tunes before I could walk.

I hope my beats get you moving at your event, and I can't wait to have a drink and celebrate together!

GIVING A EXTRA BEAT TO YOUR EVENT.

DJEMBE

The djembe is a real eye-catcher because of its colored LED strip and because it is not a typical instrument that is used in a club or event. It gives extra vibes to your event and is intended to make the audience enthusiastic for a good beat. The music is always adapted to this.

PERCUSSION / DRUM PAD

The percussion pad / drum pad is static and is perfect for playing with the DJ to add extra sounds to his set. This includes conga, bongo, timbales and drum. It is ideal for playing in the background or as an eye-catcher next to the DJ.

MUSIC

The music must be adapted to the performance, especially for djembe. Not all types of music are suitable for playing. Consultation with the DJ & organizer is preferred. Note: Music limiters can mute the sound of the djembe and drum pad.

HAVE A LOOK

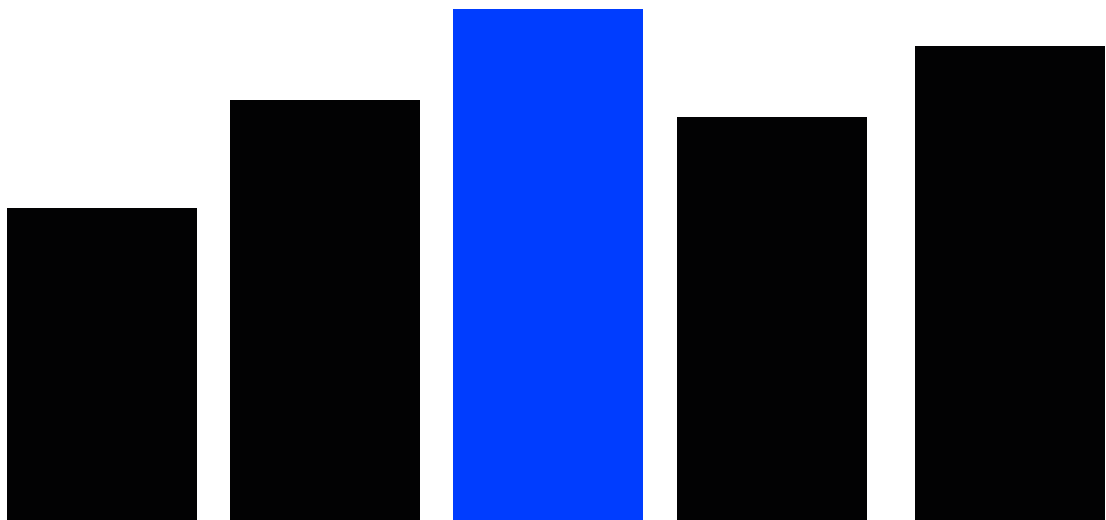

Everybody knows sax or violin, but are not familiar with percussion. So if you want to see some examples, go ahead and have a look at some shots and clips from events. (not always the best quality)
